

**I wish I could**

(From The Musical Vorrei Vorrei by Polizzi - English lyrics adapted by Debora La Rosa)

*I wish I could be a blanket and fire*

*To warm who is cold and alone*

*to let you have a rest I'd be a feather,*

*a tender feather to rest on me...*

*I wish I could be available to all*

*Who're suffering in body and soul!*

*My God, open my heart*

*And spread my love to all,*

*I wish you could sing now with me !!*

*I wish I could become food to feed who is hungry,*

*I wish I could become a dress to cover who is naked,*

*I wish I could become a drink and quench the thirst of people*

*I wish I could become a tonic to support who is weak .... I would be...*

*I wish I could go around the world,*

*just to paint the colours of love*

*and heal who isn't calm for trouble in his soul, I would like to show the only truth.*

*I wish I could be light as the sun,*

*And make blind eyes shine and see.*

*My God, open my heart*

*And spread my love to all,*

*I wish you could sing now with me !!*

*I wish I could become food to feed who is hungry,*

*I wish I could become a dress to cover who is naked,*

*I wish I could become a drink and quench the thirst of people,*

*I wish I could become a tonic to support who is weak ....*

*I would be...*
